

PRODUCT CATALOGUE

Flavour and ingredient specialists since 1898

Established in 1898, CORONA is one of Australia's oldest and most experienced leading food companies.

Our founder arrived in Australia from the UK as a free settler during the gold rush period and initially worked as a baker. He was quick to realise the opportunity to supply ingredients to bakers. Starting business in Main Street Bendigo, then not long after moving to King Street, Melbourne then South Melbourne and now Knoxfield, Victoria, where Corona is based today.

The company has long since diversified from its food application origins, solely supplying pastry cooks, essences for soft drinks and ice creams. Today, we are a 5th generation family owned and operated business that specialises in any food application that requires technical manufacturing problems resolved. Corona develops, produces and provides products (sweet or savoury) to the food industry both locally and internationally.

FOOD QUALITY AND SAFETY

We are conscious of the need to supply our customers only those products which meet the highest quality and food safety standards. That is why Quality & Safety has always been part of Corona's core values. This is demonstrated by our early initiative to become one of Australia's first food companies to be ISO accredited in 1993. Today, Corona continues to hold HACCP certification to international requirements & BRC certification, giving our customers assurance we deliver products as promised.

WHY CORONA?

A family owned Australian business

Corona is passionate about all things food! Flavour and food excite us. Most importantly our customers are viewed as partners; we value customers whether big or small with a focus on competitive pricing of products and attainment of delivery dates.

Our product's ingredients are carefully selected to be of the highest quality and are sourced locally where possible.

Our products are made on-site at Knoxfield, Victoria. Our on-site research and development team continuously work to create innovative and versatile products that excite the tastebuds, with a strong focus on both local and authentic international flavour profiles. Each new product is thoroughly tested for both taste and function before being released for sale.

What do we do?

At Corona's core is servicing the needs of our Wholesale and Industrial customers by providing quality products and services based on three business pillars:

- **Research & Development** – providing sound technical solutions for customers
- **Manufacturing** – consistently producing the highest quality products (wet or dry)
- **Logistics** – delivering products through our warehouse and transport fleet

CORONA wholesale

Butchers | Delis | Fish & Chips | Food service

Corona's wholesale range of manufactured products includes; dry flavours, glazes, coatings, burger mixes, sausage mixes, marinades, sauces and more, all made to the highest quality, at a competitive price backed with a reliable delivery service.

Eat with Confidence!

FODMAP FRIENDLY CERTIFICATION WHAT, WHY & WHERE?

An estimated 1 in 7 people suffer from IBS! The low FODMAP diet is recognized around the world as the most effective diet to manage IBS. Co-founded by world leading expert, Advanced Accredited Practicing Dietitian Dr Sue Shepherd, the 'FODMAP Friendly' Certification gives people with IBS and other individuals needing to follow a low FODMAP diet, the ability to easily identify and select suitable foods they can buy and eat with confidence.

**DID
YOU
KNOW**

The low FODMAP diet is recognised around the world as the most effective treatment for IBS-type symptoms.

WHAT ARE FODMAPS?

FODMAPs can be found in a variety of foods. They can often trigger symptoms of IBS that include bloating, wind, abdominal pain and diarrhoea and/or constipation. Not only do FODMAPs trigger symptoms in people who suffer from IBS, FODMAPs can also affect sufferers of Coeliac Disease and Inflammatory Bowel Diseases such as Crohn's Disease.

FODMAP is an acronym that stands for:

	DESCRIPTION	DETAILS	FOOD EXAMPLES
F	Fermentable		
O	Oligosaccharides	Fructans and Galacto-oligosaccharides	Wheat, rye, barley, onions, garlic, legumes
D	Disaccharides	Lactose	Milk, yoghurt, ice-cream
M	Monosaccharides	Fructose (in excess of glucose)	Honey, watermelon, apples, pears, high fructose corn syrup
A	And		
P	Polyols	eg., Sorbitol, Mannitol, Maltitol, Xylitol	Apples, apricots, cauliflower, chewing gum, breath minths

OUR LOW FODMAP RANGE INCLUDES

6086	LF CHIPOTLE & MAPLE RUB	2KG
5886	LF LEMON PEPPER & HERB RUB	2KG
3847	LF MOROCCAN RUB	2KG
4013	LF BEEFY 1-8 S/M	1KG

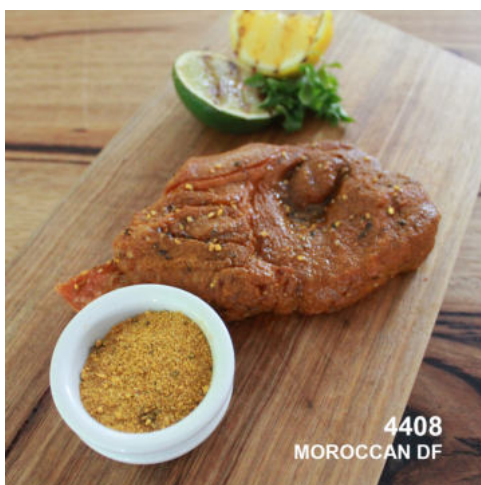

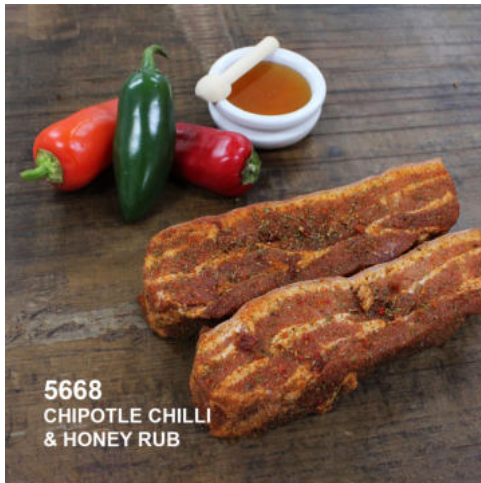

Ask in store for products utilising certified seasoning and try today.

DID YOU KNOW

People requiring a low FODMAP diet are 15 times more common than individuals requiring a gluten free diet.

DRY SEASONINGS

Corona's extensive flavour range is created with the highest quality ingredients. Create delicious and enticing value-added products with rubs, dry flavours, sprinkles and glazes.

Sausage Blends

Corona is well known for making award winning sausage meals. All blends have been designed to follow a ratio of; flavoured meal, water and meat & fat. The most common ratio being 1 - 2 - 10.

1kg

Flavoured meal

Use only fresh trimmings, the quality of the product will be determined by the quality of meat being used

2kg

Water

Use ice cold water that has been refrigerated below 3°C and keep emulsion less than 4°C

10kg

Meat & fat

Once made, refrigerate immediately and cover with a high density plastic bag to prevent fridge burn

Best method

- Use beef/lamb/pork or poultry at 75 - 85% visual lean
- Mince meat through a mincer on a coarse plate
- Add 50% of the flavoured meal to the meat and mix thoroughly
- Add 50% of the ice cold water and blend well
- Add the rest of the flavoured meal, ice cold water and mix well until dispersed
- Mince sausage emulsion to the required texture (fine or coarse plate)
- Fill into casing quickly, then refrigerate less than 4°C

Seafood Flavourings

As masters in seasonings and marinades, Corona has an extensive range of seafood seasonings that will delight your customers taste buds.

Burger & Meatloaf Blends

Corona's burger & loaf blends have been formulated to be multi-purpose. These blends can make either patties or meatloaf. For ease most of our gourmet blends have been designed to be used at a 1-1-10 ratio.

1kg

Flavoured meal

Use only fresh trimmings, the quality of the product will be determined by the quality of meat being used

1kg

Water

Use ice cold water that has been refrigerated below 3°C and keep emulsion less than 4°C

10kg

Meat & fat

Once made, refrigerate immediately and cover with a high density plastic bag to prevent fridge burn

Best method

- Use beef/lamb/pork or poultry at 75 - 85% visual lean
- Mince meat through a mincer on a coarse plate
- Add 50% of the flavoured meal to the meat and mix thoroughly
- Add 50% of the ice cold water and blend well
- Add the rest of the flavoured meal, ice cold water and mix well until dispersed
- Mince burger emulsion to the required texture (fine or coarse plate)
- Form into desired shape and size, then refrigerate less than 4°C

At Corona we stock a large range of crumbs for all your crumbing needs. From schnitzel crumbs to stuffing mixes we have something you will love.

	Flavour profile of onion and sage.		

Stuffing Mixes

Corona's blends have been formulated to be utilised as a stuffing within poultry or rolled into meat. All stuffings are designed to be used in a 1-1 ratio.

1kg
Stuffing mix

In addition to the stuffing mix, you can add fresh herbs, nuts, dried fruits and diced small goods.

1kg
Water

Use ice cold water or water that has been refrigerated below 3 degrees and keep mix less than 4 degrees

Best method

- Use 1 part stuffing mix and blend with 1 part water
- Mix well until all water has been absorbed
- Leave mixture for 15 minutes to ensure water binding is maximised
- Stuff into a bird or roll into a loin

Corona's food coatings range is created with the highest quality ingredients with functionality in mind.

Handy Pack Frankfurter

Corona's 8819 HANDY PACK FRANKFURTER is a quality premix making the production of frankfurts easy and delivering a great tasting product everyone will enjoy.

2-step method

Step 1

- Mince all the meat through a 5mm mincing plate
- Add the gourmet meal and seasonings to your taste and mix until completely combined
- Add the iced water, mix until it is completely adsorbed
- Mince through a 3mm plate until mixture is consistent and smooth in texture. Then refrigerate overnight

Step 2

- Fill into casings and link to desired length
- Redden the product by cooking at 50°C for 15 -20mins
- Complete cooking in water at 70°C – 72°C for 15mins
- Finish the process by cooling product in cold water before refrigeration

1kg
Premix

You can use your on combination of beef and pork. We recommend 60% beef and 40% pork

4kg
Iced water

Use ice cold water that is below 3°C as you start the mixing process

15kg
Meat

When mixing meat the ideal temperature of the product should be below 4°C

Traditional Salami Mix

Corona's 1017 TRADITIONAL SALAMI MIX has been developed to make the process of making salamis easy. With a simple two step method that will produce a quality outcome, which you can add your own special flavourings twist: Chilli, pepper etc..

2-step method

Step 1

- Mince pork and fat with a coarse 6mm (¼") or 3mm (3/16") mincing plate, depending on your preference
- Sprinkle Wine and Spirit over meat and mix well
- Delicately add in the Salami Pre-mix and mix thoroughly
- Press meat down firmly in tub, cover with cloth and place in fridge overnight

Step 2

- Carefully wash and prepare casings in a solution of wine & water
- Fill out casings carefully avoiding air pockets. Then prick salami with needle allowing no air bubbles to remain in the salami
- Hang to dry in a well-ventilated cool environment until firm

1kg
Flavoured meal

1kg of 1017 TRADITIONAL SALAMI MIX contains all the required ingredients for salami making, nothing to add other than your own flavouring twists

22.5kg
Pork & beef

22.5kg pork & beef trimmings. Mixture to be at less than 4 degrees when combining

Corona pie and pastie mixes give consistent flavour every time and make the process of making pies, sausage rolls and pasties easy!

8192
BEEF PIE MIX

GRAVY PREMIXES

Gravy premixes have been designed as a filling for pies and can also be utilised in seasoning ready made meals.

5285 STICKY & SWEET GRAVY MIX 2 kg

PASTIE INGREDIENTS

Dehydrated blend of vegetables with herbs & spices.

2444 CORNISH VEGETABLE MIX 1.5 kg
Can be added to mince to improve nutritional values.

PIE PREMIXES

Pie premixes make it simple in making a consistent thick filling.

2444 - Cornish Vegetable Mix

SAUSAGE ROLL PREMIXES

Sausage rolls are a great Australian classic that everyone loves!

6524 SAUSAGE ROLL PREMIX S/M 5 kg

Pie Premixes

Corona's range of premixes make it easy in producing a consistent and thick filling for pies. From the simple base mix, classic, beef, chicken or pie mix we have it covered. All very tasty and simple to use.

1kg
Pie premix

Select the appropriate mix from the range: Base 8861, Classic 2682, Beef 8192, Chicken 8193 or Pork 4156

5.4L
Cold water

Mix 5.4 litres of cold water with 1kg of premix

4.8kg
Meat

For effective results use 4.8kg of your selected produce – Beef, chicken, pork.

Best method

- Add 1kg of the selected premix to 5.4L of cold water, blend until smooth and all the mix is dissolved
- Add 4.8kg of selected produce and combine well, cook until produce is cooked through. The mix can be stored at below 4°C if not cooked immediately
- Fill into pastry, cook for an additional 20mins at 165 - 170°C

Additional options

- Diced raw vegetables – add 400g for 1kg of filling mixture
- Finely sliced vegetables – add 300 - 400g per 1kg of filling mixture
- For additional flavour consider adding a Corona marinade at 100g per kg or topping the mix with a Corona dry flavouring at 100g per kg

Collagen Edible Fresh

- Fresh casings are ideal whether you are producing a simple BBQ snag or a premium speciality sausage
- Available in a basic casing for volume production of value sausages providing a consistent bite and glossy appearance, or a premium casing for specialty sausage. Both offer a high level of clarity for excellent consumer appeal and are cost effective alternative to sheep and hog gut
- Available in 22, 23, 26 & 30mm

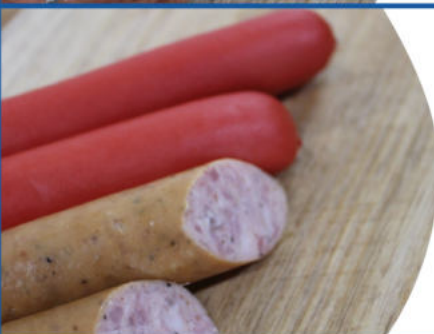

Collagen Edible Processed

- Depending on your specific requirements, Edible process casings are ideal for frankfurts, hotdogs, kabana, kransky and more...
- Ideal for smoking, drying or even steam cooking of sausages, with optimal smoke intake to ensure a consistent product every time
- We have a full range available to suit your needs including coloured casings and Halal options

Non-Edible Processed

- These are ideal for salami, strassburg and other small good production
- The ideal casing selection will depend on the process being used - cooked, smoked hot/cold, fermented or air dried
- These products need to be soaked prior to filling
- Available in a range of diameters and lengths, they can be clip or string closed
- These casings must be peeled off before consumption

For the best results, discuss your specific requirements with our customer service team.

a division of

Alto's Award Winning rPET Moisturelock Meat Trays

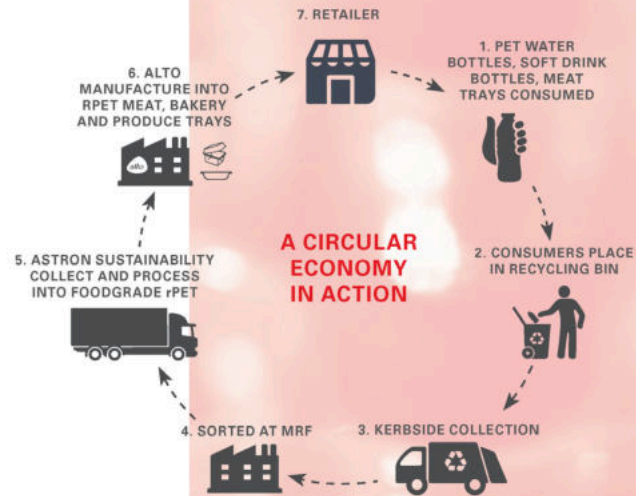

...comprise recycled material and are accepted by every kerbside recycling scheme throughout Australia and New Zealand.

Why rPET?

- It's a sustainable, cost-effective, high-performing solution that is a replacement for virgin PET
- Requires less energy to manufacture per kilogram than virgin PET, further contributing to a decrease in the environmental footprint

- State-of-the-art processes and quality assurance standards have enabled Alto to develop rPET that can be combined with virgin PET and mimic its performance
- No compromise to manufacturing efficiencies or product performance standards

rPET's Circular Story

The Key Features of our Gen 2 Tray Range

Holds & retains liquid (eliminates the need for absorbent pads)

Fully recyclable in New Zealand and Australia

Produced using Food Contact approved materials

Tray shape delivers maximum footprint & excellence in presentation

Specifically designed for use in Overwrapper

Range available in Clear

rPET – made using Post Industrial and Post-Consumer Recycled PET (PCR)

Improves overall pack presentation

Angled rim provides improved seal – reduces risk of leakage

Applications

Fresh Red Meat

Poultry

Processed meat

Seafood

www.alto.co.nz

We can print nutrition, ingredient and country of origin labels to match Corona products. Examples of these labels can be found on the following few pages. Please speak to our sales team for more information.

The below list of labels are great for marketing your product range and getting your customer's attention - simply stick on the pack.

4562
LABEL 'GLUTEN FREE'

COUNTRY OF ORIGIN LABELS

In certain circumstances Australian food must be labelled to convey the percentage of Australian content within a finished good. This helps consumers make informed decisions about the food they buy. If unsure which label you should use, our sales team would be more than happy to help you through it.

9802	LABEL "MADE IN AUST 90%"	500
9801	LABEL "MADE IN AUST 95%"	500
9803	LABEL "MADE IN AUST BLANK %"	500
9800	LABEL "PRODUCT OF AUSTRALIA"	500

PROMOTIONAL LABELS

Eye catching labels to help promote your product. Please refer to the following pages for label designs.

2405	LABEL "BARBECUE"	1000
